

Individual Activity - Work to reduce the risks

Lynn Robert Carter, PhD

2018-02-25

Activity Kind

Individual activity

Purpose

The purpose of this exercise is to reduce the list of risks that could be the cause of significant problems in completing the projects on time and with quality.

Pre-requisite

Students are expected to have participated in the Individual Activity - Refine the list of risks and prioritize them.

Tasking

Continue to identify and work high priority items that you could work on now (have enough time and have the required resources) and start executing your ideas. (Create a prototype. Do an Internet search. Do other things.) Capture the results of your activities in your ENB so you will have them when you need them over the next two weeks.

Deliverable

Students are responsible for producing and posting their notes in their ENB as evidence that they performed this task.

Submission

Each student must produce and submit your ENB for the day.
